

## Check out this new rendering of the Hard Rock Hotel & Casino in AC

JOHN DeROSIER Staff Writer

Representatives of the Hard Rock Casino Hotel in Atlantic City have released a new rendering of what the renovated resort will look like at the valet entrance on Virginia Avenue.

The guitar replaces the fountains that were installed prior to the opening of the Trump Taj Mahal in 1990, and the gold background replaces the iconic Indian-themed windows and large TRUMP sign that greeted guests until the casino's closing in 2016.

The Hard Rock is scheduled to open by Memorial Day of this year following over \$500 million in renovations to the entire building.
