

*“With the insight, guidance and well-connected network of the Atlantic County Economic Alliance, we successfully completed our \$60 million expansion and have created nearly 100 additional professional and technical jobs.”*

**Peter Gallagher, Vice President  
TELIGENT, INC.**

Teligent, Inc. is a specialty generic pharmaceutical company located in Buena Vista Township that had considered moving its operations out of New Jersey. Through the cooperative efforts of township and county officials and the Atlantic County Economic Alliance, Teligent not only decided to stay local, but to significantly expand their capacity and invest in more high-tech manufacturing and R&D capabilities.

We highly recommend that businesses speak with the ACEA before considering relocating outside Atlantic County. The team is passionate and committed to understand your business and talent challenges, and was a resource we called on regularly to help navigate planning, zoning and inspection requirements. We are proud members of the Atlantic County and Buena Vista communities, and thank ACEA for its unrelenting support as we grow!

Teligent, Inc. markets and sells generic topical and branded generic and injectable pharmaceutical products throughout the US and Canada. Its mission is to be a leading player in the specialty generic prescription drug market. The company’s ethos is to “Work hard and be nice to people.”
